2006 RESEARCH CITATIONS

The Minneapolis Medical Research Foundation (MMRF) is the research arm of Hennepin County Medical Center, an acute care research and teaching hospital staffed by the physicians of Hennepin Faculty Associates. The MMRF is the third-largest nonprofit medical research organization in Minnesota and it ranks in the top seven percent of all institutions receiving research funding from the National Institutes of Health.

Each year, MMRF researchers publish a wealth of medical knowledge based on their MMRF-sponsored research projects. In this document you will find a list of citations for all the published works by MMRF researchers in the year 2006. MMRF researchers are indicated in blue.
